

GG Service Plans >> Temp Plan

The Temp Plan is for those companies that are able to manage technology internally but need extra hands/expertise for isolated one time projects, big or small. This may be the right choice if you are looking to solve these common issues:

- Add Wireless
 - Install software i.e. QuickBooks TM, ACT TM, FileMaker TM, or other specialized business tools
 - Computer moves and fixes
 - Upgrades
-

The Temp Plan Offers:

Accountability and Experience: Time Temp Plan Project Manager-

- *Coordinates project resources: people, time, vendors, and tasks to ensure project success and client satisfaction*
 - *Creates and monitors scope of work document, project plan, time line, milestones, task list, and budget*
 - *Manages and coordinates technical personnel and vendors*
 - *Communicates project status with client on a regular basis*
 - *Typically 7+ years experience in IT field*
-
